

A dramatic sunset scene over a beach. The sky is filled with dark, heavy clouds, with a bright, golden light breaking through near the horizon. The sun is low, creating a strong reflection on the wet sand and the calm water. On the left, a long wooden pier extends into the sea. On the right, a person is standing in the shallow water, their silhouette reflected in the calm surface. The overall mood is somber yet hopeful, with the bright light suggesting a breakthrough or a moment of hope amidst darkness.

Help The
Needy!

The Idea

We want to help you so that you can easily help the needy.

Interesting?

Let's find out more!

Looking for some
NGO to work with?

What do you do
usually?

1. Ask your friends, family etc.

2. You Google some random string to fetch NGOs

3. You search for their address, You use that address on Google Map and find that the NGOs is very far

4. You search for more NGOs, and repeat above steps again and again.

So instead of spending some time helping someone, what did you do actually?

Searching for an NGO to work for took a lot of your time!

Are there no other easy way out?

Now there is!

Help The Needy!

To use this you just need to
Enter your address.

Get all the nearby NGOs with a
map and all information about
them.

Time saved?

Technological Aspects

- Django : Makes it easy to change to add more features.
- No Database : We are using Google Places API.
- Bootstrap : So no fuss if you open it in a mobile. Awesome. Isn't it?

Functionalities to come

SOON!

- Choose NGOs category wise.
- Change radius to look for nearby NGOs.
- A login to save everything you do.
- Your profile page, which shows where you have worked, and how much you rank.
- A NGO Page, having all information about an NGO.
- Review for you from a authentic NGO person, who worked with you.

Big Plan

We want you to help anyone who is in need

- Post anything on our Facebook Page, an address (your location) is necessary.
- We will run the feed on our website.
- People who want to help you, will be shown the map so that they can reach to you easily.

About Developers

Oh, let's not discuss about us, it's the idea that matters not the people!
